

Add **AIFX Token** to MetaMask

Follow these simple steps to import AIFX on BNB Smart Chain

01

Open Tokens Tab & Tap '+'

In your MetaMask wallet, go to the **Tokens** tab. Tap the **+ Import Tokens** button to start adding a new token.

02

Select 'Import Token'

From the menu that appears, choose **Import Token** to proceed to the token import screen.

03

Select Network — BNB Chain

Ensure the network is set to **BNB Smart Chain**. If not, switch the network from the network selector before continuing.

04

Tap 'Custom Token'

Select the **Custom Token** tab to manually enter the AIFX contract address.

05

Enter the Contract Address

Copy and paste the AIFX contract address below into the **Token Contract Address** field. The token symbol and decimals will auto-populate.

CONTRACT ADDRESS

0x0D605528895b92a63609D688F740851A67D04540

06

Tap 'Next' & Confirm

Tap **Next**, review the token details on the confirmation screen, then tap **Import**. AIFX will now appear in your MetaMask wallet!
